## DETAILED ACTION

### *Response to Amendment*

1. The amendment filed May 16, 2006 has been entered; no new claims have been introduced.

### *Election/Restrictions*

2. This application is in condition for allowance except for the presence of claims 1-5, 9 and 21-23 directed to a species non-elected without traverse. Accordingly, claims 1-5, 9 and 21-23 have been cancelled. Furthermore, claims 8, 10, 24 and 25 -- additional species which are in dependent form of an allowed generic claim as provided by 37 CFR 1.141 -- have been rejoined.

3. This application is in condition for allowance except for the following formal matters:  
See below.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

### *Specification*

4. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The recitation of claim 8, calling for, "... between **said nitride film of refractory material** ..." lacks proper antecedent basis. Note that the base claim 6 has been amended to include " first and second nitride film of refractory metal."

Art Unit: 2826

5. Amended claim 6 is objected to because of the following informalities: The words “constructive” (line 10) and “file” (line 18) should read, “conductive” and “film” respectively. Appropriate correction is required.

**The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.**

### *Drawings*

6. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters “14p” and “10p” have both been used to designate p-type region (see pages 34 and 35, lines 25 and 18 respectively). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: **Reference numeral 66 shown in fig. 11C is not mentioned in the description.** Corrected drawing sheets

in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Sefer whose telephone number is (571) 272-1921.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on (571) 272-1915.
